Hatha Vinyasa Yoga you will be guided through a combination of vinyasas (a series of connected movements through breath), asanas (poses), pranayamas (conscious breathing), meditation and relaxation, moving steadily and often pausing to hold poses for various lengths of time. Tabata will push you through twenty-second intervals of cardio, core, balance and strength with a ten-second rest between each interval. Join us for this efficient, full body, calorie-burning class where you choose your intensity level.

Vinyasa Slow Flow is a yoga class that moves at a slower pace, allowing you to mindfully explore movement, strength and poses in all directions while focusing on your breath. This class encourages you to explore your boundaries and tap into your creativity, all while feeling relaxed and rejuvenated

Yin Yoga is a slow, meditative style of yoga that focuses on long, passive holds to target the body's deeper connective tissues—ligaments, joints, fascia, and tendons—rather than just the muscles. When practiced with a focus on targeted flexibility, the sequence and poses are chosen to gently open and lengthen specific areas of the body over time.

Yoga Basics focuses on core yoga poses presented in a gentle format. Participants receive ongoing cues as well as options to enhance their practice. Focus is on the breath, safe alignment, balance and strength, to enhance overall wellness.

Yoga for Mobility is a dynamic, feel-good class designed to help you build strength and flexibility at the same time. With a focus on functional movement and controlled range of motion, this course supports joint health, builds stability, and helps you move more freely and confidently—both on and off the mat. Perfect for all levels!

Yoga Nidra is beginner-friendly and includes 3 restorative yoga poses, held for approximately 8 minutes each, followed by a 30-minute scripted guided meditation to help participants get to a state of non-sleep deep rest. Feel free to bring pillows and blankets to optimize comfort! This class is like a nervous-system reboot :)
